

# "Finding the Treasures of Life!"

**2005-2006 FCCLA**

**Child Care Service/Learning Center Theme  
Proficiency Event for Individuals or Teams**

In a small child's eyes a treasure can be anything from a quarter on the street to play-dough. Your mission is to teach children to appreciate all of life's treasures no matter how important or insignificant they may seem.

In a creative display, participants will show how they have taught children ages 3-5 about the treasures of life. Refer to the Proficiency manual for complete requirements for this project.
